Steering Wheel Assembly for Corvette: Model #'s KT1006, KT1007, KT1008, KT1023

Dear KidTrax Assemblers,

Please take notice of the correct method when assembling the steering wheel on the various KidTrax Corvette models. Failure to do so may result in damage to steering wheel wiring and the Motor Control Board (MCB).

Please follow the instructions on page 8 of the User Guide and take care when inserting the screw into the steering column to avoid any damage to the wiring.

Photo of wire inside steering column

Please Refer to the User Guide for Installing the Steering Wheel

Figure 2 of User Guide

Position the steering wheel near the front of the dash with the logo facing right side up. Guide the steering wheel cable (black cable with white end) into the steering column hole. Pull up on the steering column while pushing down on the steering wheel. This enables the steering column to remain in place while the steering wheel is assembled.

Figure 3 of User Guide

Locate hardware bag labeled "C" for nut and screw. **Carefully insert the screw into steering column so as not to damage the wiring inside the steering column and tighten the nut securely.** Do not over tighten. The screw should insert easily into the steering column. **If you feel any resistance, stop and check for clearance.**

Figure 4 of User Guide

Locate the steering wheel cable and the main wire harness cable. Fasten connector ends securely. **NOTE:** If the connectors do not fit easily, flip one over and try again as they should "snap" into place easily.

Use hand tools only. DO NOT use power tools of any kind. This can weaken the plastic causing irreparable damage.

Test the steering wheel & front wheel movement to ensure they move together. The steering wheel should stop at the same time the front wheel stops. If the steering wheel continues to turn when the front wheels do not, then assembly has not been completed correctly. Please be sure the lights, sounds, and motor are functioning properly before releasing the unit for sale.

Please contact us at (877) 741-6154 if you have any additional questions or comments. We appreciate your business.

Kind regards,

KidTrax Service Team
